Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for the Danville Townwide Fiber Project. The entity to receive funding for this project is the Town of Danville, located at 500 La Gonda Way, Danville, California 94526.

The funding would be used for establishing a fiber optic interconnect network between 54 traffic signals in Danville, CA to enable real-time traffic signal optimization to reduce traffic congestion and improve safety, and allow for future implementation of smart city technologies. The project is an appropriate use of taxpayer funds because it will improve traffic signal infrastructure to reduce congestion, improve roadway safety, and enable the implementation of emerging technologies.

The project has a federal nexus because the funding provided is for the purposes authorized by 23 USC 133.

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Mark DeSaulnier  
Member of Congress
