Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for the Next-Generation Pump Station and Collection System Design Studies Project in Fiscal Year 2027. The entity to receive funding for this project is Mt. View Sanitary District, located at 3800 Arthur Road, Martinez, California 94553.

The funding would be used for initiating pump station and collection systems upgrades by studying the root causes of system stress and most efficient and effective repair methods. The project is an appropriate use of taxpayer funds because it will directly reduce the risk of sanitary sewer overflows, regulatory violations, and downstream impacts to federally protected waters, advance national infrastructure priorities, and ensure that future construction, including local ratepayer-funding work, will be developed with federal priorities in mind.

The project has a federal nexus because the funding provided is for purposes authorized by Title VI of the Clean Water Act, 33 U.S.C 1381 et seq.

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Mark DeSaulnier  
Member of Congress
